Completion Date:
2009

Estimate:
\$2.2 million

Key Personnel:
John DiDonato, PE
Greg Hewitt, PE
Peter Ringo, PE
Mark Berke, PE
Christopher Gardner, PE

DiDonato Associates provided design services for the replacement of the existing grass football/soccer field with a new synthetic turf field and restoration of the surrounding track with a new synthetic surface, along with associated re-grading and all necessary subsurface drainage improvements. We also provided drainage improvements to the existing baseball field, including the addition of subsurface drainage. The entire infield was rebuilt and re-graded. A new outfield fence and foul ball poles were installed. A new state-of-the-art multi-use scoreboard with video capabilities was installed along with a new 9-inning baseball scoreboard. Locker room improvements include new lockers, HVAC, and lighting upgrades. A new unisex employee bathroom was built in the service building.
