DiDonato is providing biennial bridge inspection services for Region 4. Program involves the Inspection and Load Rating for **1,061 bridges / 1,800+ spans**. Services include project coordination/ office support and field services necessary to complete Bridge Inspection, Inventory, and Load Rating work for structures identified by NYSDOT utilizing BDIS. Project includes inspection of the Irondequoit Bay Bridge, an eleven-span, 2,375.36-foot (724.01 m) continuous steel truss bridge spanning Irondequoit Bay in eastern Monroe County, New York.

DiDonato was recently selected for a consecutive two-year contract in Region 4.
